

Economic Growth Management

Investor Support and Business Retention

Project	Expertise Provided
<i>Pan-London Business Retention Strategy</i>	Study of the prospects for expansion and possible relocation of 500 major employers in Greater London. Our recommendations for permanent support mechanisms to encourage their long-term retention and reinvestment were subsequently implemented across London. Client: London First Centre and London Development Agency
<i>Surrey Business Retention Strategy</i>	Survey of 200 major businesses to assess relocation threats and short and long term support needs to assure their continued operations within Surrey. Recommendations were submitted on the set up of a county business retention support service, protocols for support functions of the local authorities and the set up of a county property information service. Client: Surrey Economic Partnership
<i>Survey into Prospects for Retention and Expansion of Manufacturing in East London</i>	Comprehensive identification of all large manufacturing companies within the sub-region, followed by a 100% survey to identify plans for relocation or expansion support packages needed for re-siting of operations, improving workforce skills, and business growth. Client: East London Local Authorities
<i>Enfield Business Retention Survey</i>	Survey of major businesses across Enfield to assess their expansion prospects, relocation threats and support needs. Client: Enfield Borough Council
